### SUMMARY

*Feel free to check out my website for more information and to see my portfolio.*

WEBSITE DEVELOPER & WEB DESIGNER | SOFTWARE DEVELOPER | GRAPHIC DESIGNER | IT ADMINISTRATOR

### TECHNICAL SKILLS

#### WEBSITE AND DESIGN DEVELOPMENT

Familiar and Experience in WordPress, ASP.NET (Razor), PHP, Laravel, and Angular to create robust, responsive websites and web applications tailored to client needs.

#### PAGE BUILDERS & FUNNELS

Skilled in using Elementor, Divi, Oxygen Builder, ClickFunnels, Gutenberg, and GoHighLevel to design and optimize high-converting landing pages and sales funnels.

#### WORDPRESS CUSTOMIZATION

- Theme & Plugin Development: Custom development of themes and plugins to enhance website functionality.
- WordPress Hooks (Actions & Filters): Advanced customization using hooks for seamless functionality improvements.
- Child Themes: Creation and customization of child themes to maintain update-safe modifications.

#### UI/UX & GRAPHIC DESIGN

Proficient in Figma, Canva, Adobe Photoshop, and Illustrator for creating engaging, user-friendly designs, and prototypes.

#### DATABASE & BACKEND

Extensive experience with Microsoft SQL Server and MySQL for building and managing database-driven websites and applications.

#### API & TOOLS

Develop and integrate RESTful Web APIs, using Postman for testing and Swagger for documentation. Skilled in Git for version control and collaboration.

#### HOSTING & EMAIL

Develop and integrate RESTful Web APIs, using Postman for testing and Swagger for documentation. Skilled in Git for version control and collaboration.

#### NETWORKING & IT

Proficient in Local Area Network Setup, Firewall Management, and Server Access Configuration for secure, efficient network and server setups.

#### GOOGLE TOOLS

Familiar and Experience in utilizing Google Business Manager, Google Analytics, and Google Ads to optimize website visibility, performance, and ad campaigns.

#### INTEGRATIONS

Integration of WhatsApp Chat for real-time communication, Click-to-Chat for easy customer interaction, and payment gateways like PayPal, Stripe, and Razorpay for smooth transactions.

#### IT OFFICER

- Technical Support: Providing first-line support to end-users, diagnosing hardware and software issues, and ensuring minimal downtime.
- System Administration: Managing user accounts, permissions, and ensuring the smooth operation of IT systems.
- Documentation: Maintaining records of IT assets, configurations, and procedures to ensure transparency and continuity.

#### IT MANAGER

- Team Leadership: Overseeing a team of IT professionals, providing guidance, and ensuring continuous professional development.
- Infrastructure Oversight: Managing the organization's IT infrastructure, including servers, networks, and security systems, to ensure reliability and scalability.
- Policy Development: Establishing IT policies and procedures to govern system usage, security protocols, and data management.
- Vendor Management: Coordinating with external vendors and service providers to procure IT services and solutions that meet organizational requirements.
